Connecting Children and Parents through Visitation Course ID: 4560

(Effective January 1, 2014 for all parents approved in 2013 and thereafter)

This 1-hour workshop required In-Service course enables participants to have a better understanding of the Federal and State mandate, on child and family visitation. Participants will learn the importance of the child and family visitation, and why supporting this contact, is important to a child's developmental and mental well-being. Finally, participants will learn how to identify the reasons for a child's behavior before, during and after visitations and how to strategically, minimize these behaviors.
